

# SEND MONEY EASILY WITH ROPAY ALIAS BASED ON A REQUEST-TO-PAY NOTIFICATION

## What Is RoPay?

**RoPay is the national instant payment service**, developed by TRANSFOND and Romanian banks, which enables fast and secure bank transfers **directly from the mobile banking applications of participating banks, without manually introducing the payment details** (IBAN, beneficiary name, bank).

## What Is RoPay Alias?

The **RoPay Alias** service offered by Vista Bank allows transactions **between individuals based solely on the phone number**. Essentially, RoPay Alias creates an association (alias) between the client's phone number and their bank account, making transfers instant and intuitive.

Did you receive a payment request from a colleague or a friend? With **RoPay Alias**, everything becomes easier and more secure! **Now you can send money directly from Vista Mobile** based on a Request-to-Pay received from the Beneficiary.

**1**

### Receiving the Request-to-Pay Notification

After receiving the notification from your banking app, **you have 48 hours** to make the payment.

Tap “**Open**” and you will be directed to the “**Payment Request Details**” menu.

\*) In the “Income” tab of the “Request to Pay RoPay Alias” menu, you can view the entire history of payment requests.

**2**

### Authorize the Request-to-Pay

**Select the account** from which you want to make the payment.

**Verify the beneficiary's name** provided via the SANB service – Beneficiary Name Display Service.

If the Beneficiary has allowed **the amount to be edited** by the Payer, you will also be able to modify the amount here.

**Authorize** the payment.

**3**

### Wait for the payment to be completed

That's it, you don't need to do anything else!

Just keep an eye on the screen until you see the message: **“TRANSACTION PROCESSED SUCCESSFULLY!”**
